ABOUT ME

Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning, with a strong interest in software development, AI technologies, and problem solving. Possessing knowledge of **Python, C, Data Structures**, and programming fundamentals through academic learning and hands on practice. Eager to explore emerging technologies, work on practical projects, and continuously improve technical skills by gaining real world experience in the field of software and AI development.

EDUCATION

2025-2029

Bachelor of Technology (CSE - AI & ML)

RIT ROORKEE

Uttarakhand Technical
University

- Currently pursuing B.Tech in Computer Science Engineering (AI & ML).
- Studying core subjects like Programming, Data Structures, AI basics and ML concepts.

TRAINING & CERTIFICATIONS

Python Training

By Grant Thornton

Completion of 10 day training program on technical skills offered by **Grant Thornton** covering basics of Python programming and dictionaries.

Soft Skill Training

By GeeksForGeeks

Completed a Soft Skills Training Program conducted by **GeeksForGeeks** focused on communication, teamwork, personality development, and professional skills.

DSA Training

By GeeksForGeeks

Presently undergoing training for Data Structures and Algorithms (DSA) by **GeeksforGeeks** in my college curriculum which is based on problem solving, logic, programming principles, and enhancing coding skills.

PROJECTS

Food Donation Website

Designed and developed a full-stack food donation platform that bridges donors and NGOs. Implemented food posting, NGO claim requests, and donation tracking to help reduce food waste and support community welfare. Technologies used : **HTML, CSS, JAVA SCRIPT**.

Starbucks Data Analysis project

Performed data cleaning, filtering, and exploratory data analysis (EDA) on Starbucks datasets using **Python (Pandas, NumPy)** and created visualizations with **Matplotlib & Seaborn** to identify sales patterns, product performance, and business insights

SKILLS

Technical Skills

- Languages: C, Python
- Core Concepts: Basic Data Structures & Algorithm
- Tools: VS Code

Soft Skills

- Time Management
- Teamwork
- Adaptability
- Problem Solving
